

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

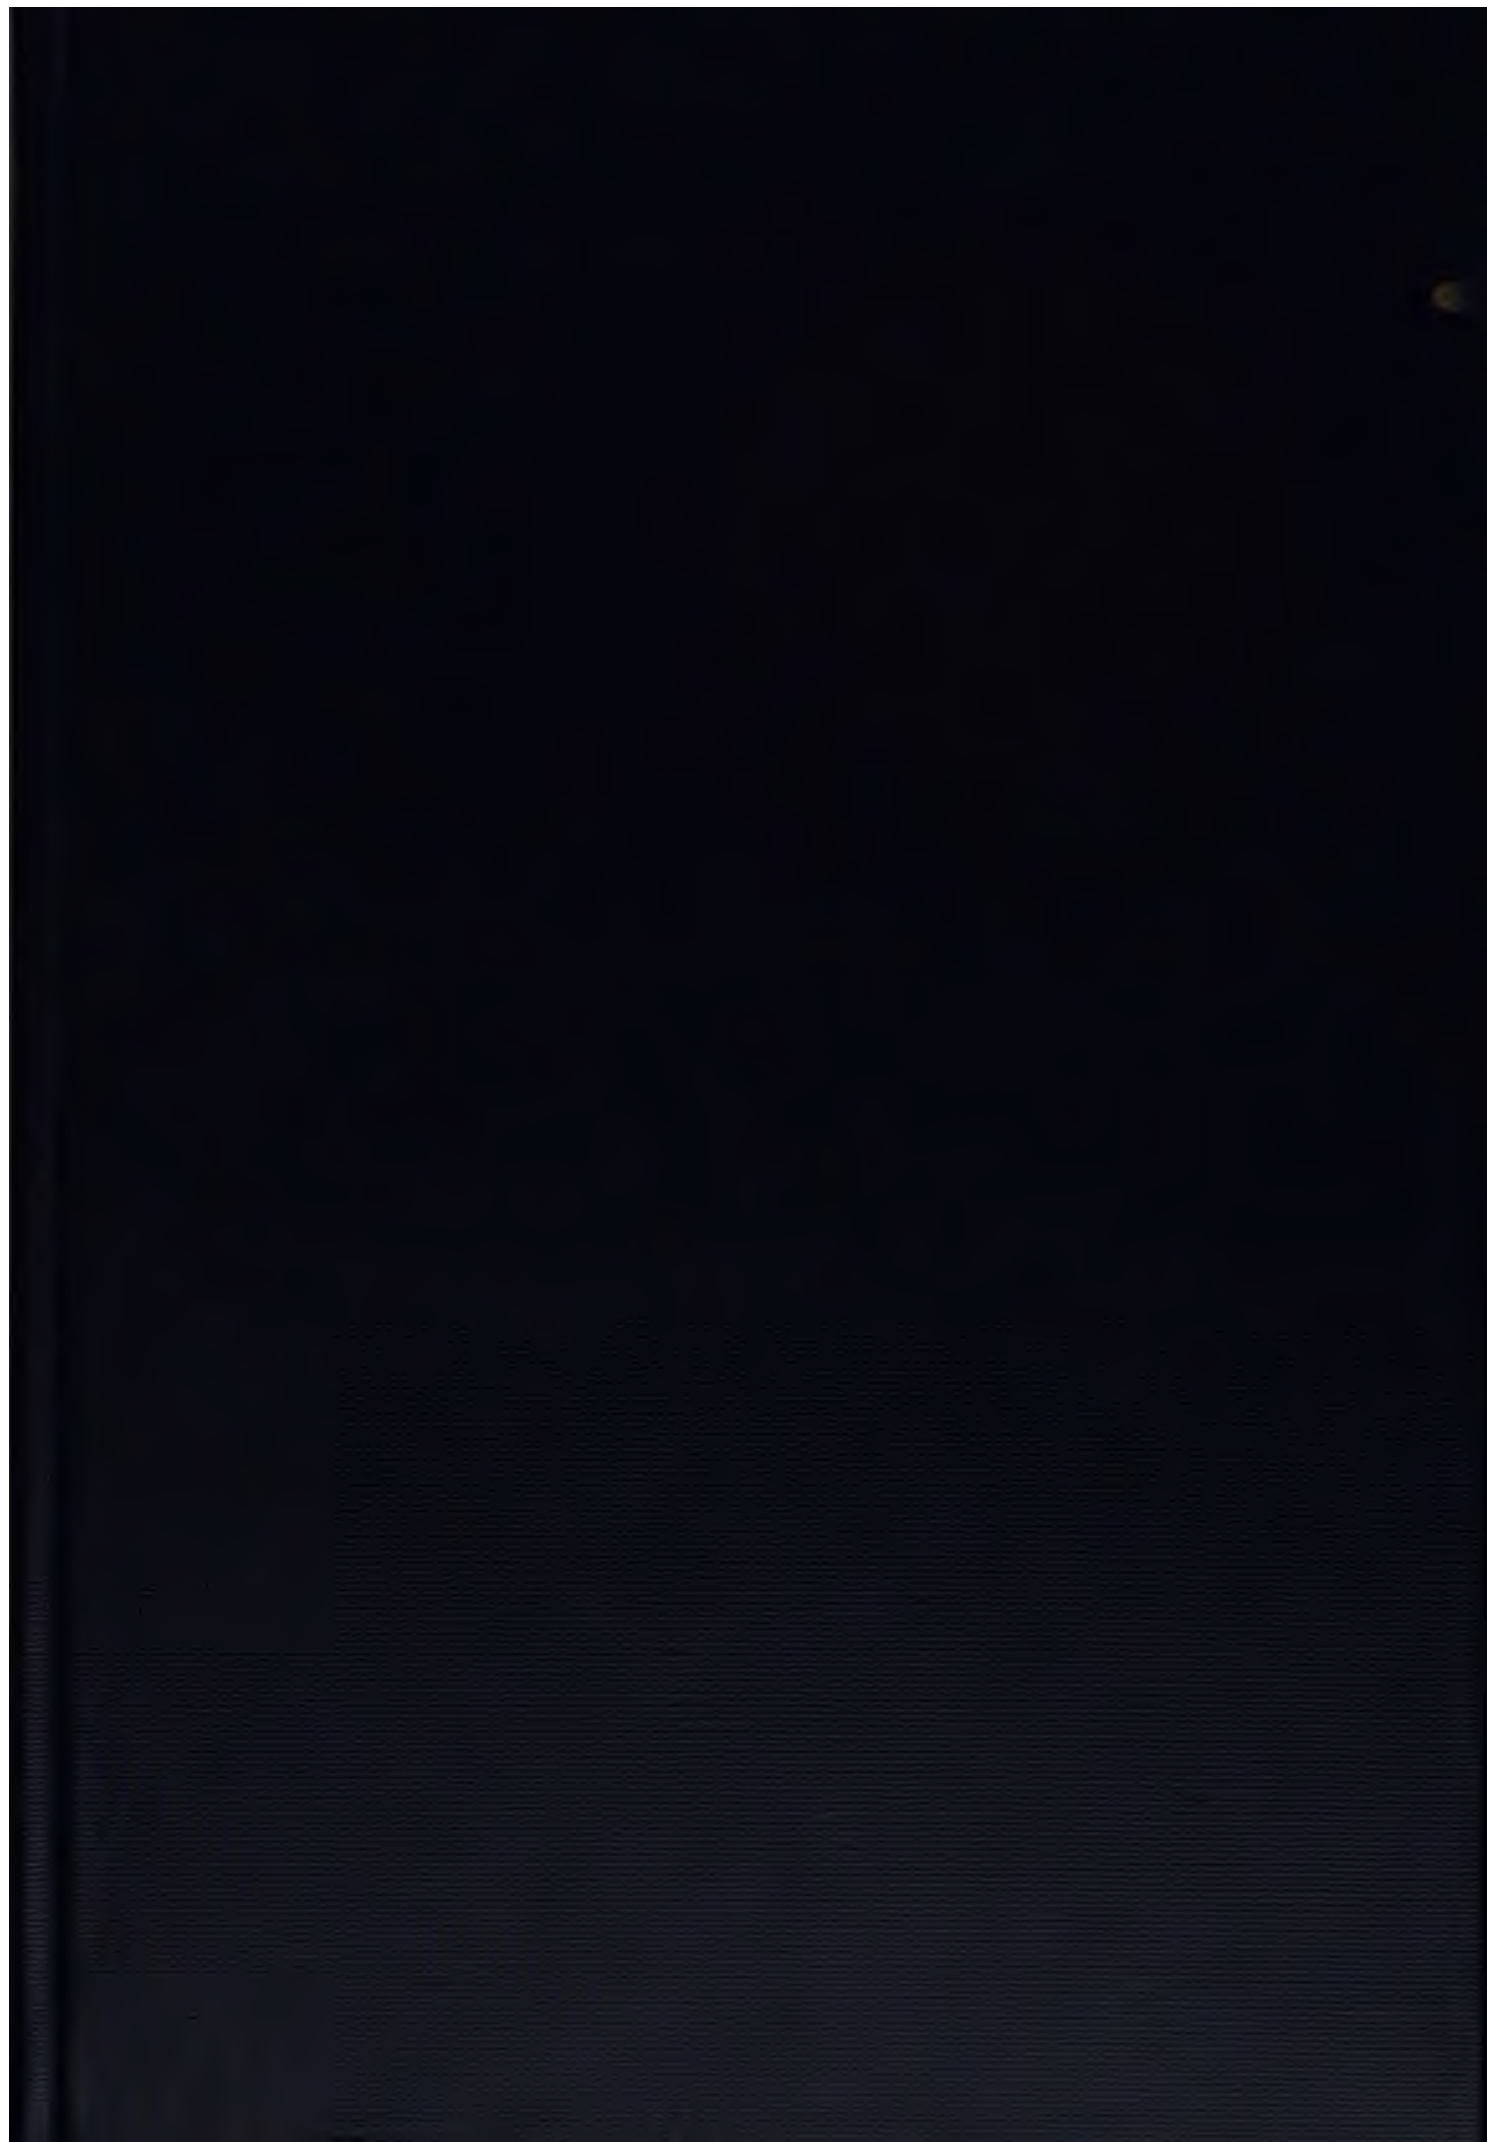

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

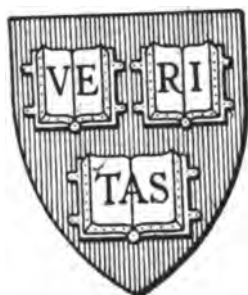

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

PREFACE.

THE following index embraces all the regular city documents which have been numbered and bound together at the end of each year, from 1834 to 1908, inclusive. They are arranged in alphabetical and chronological order. Previous to 1834 very few documents were printed, and, as they were not numbered nor bound together, it would probably be impossible to make a complete collection at this time. The first Mayor's Address which appears among the regular documents is Samuel A. Eliot's, delivered at the inauguration of the government of 1838. The first Fourth of July Oration is Jonathan Chapman's, delivered in 1837. The Auditor's "Twenty-second Annual Report" is contained in the volume for 1834, and the list of reports is complete from that date. The Municipal Register begins with the year 1841. The Annual Report of the City Marshal [see *Police and Watch*] was printed in 1834. The next printed report does not appear until 1849. From that date the list is complete. Reports on the correctional and reformatory institutions are nearly complete from 1834 to the present time. The first annual report of the Superintendent of the Lunatic Hospital was printed in 1840. First among the numerous documents relating to the introduction and distribution of water is Loammi Baldwin's report, made in 1834. The only report of any value upon the question of water supply, made previous to that date, was Professor Daniel Treadwell's, in 1825. Mr. Nathaniel J. Bradlee's history of the waterworks, printed for the use of the city government in 1868, and Mr. Desmond FitzGerald's supplementary history, printed in 1876, are not included among the numbered documents.

The changes that have been made in departmental designations have necessitated some changes in topics which are generally indicated in foot-notes and cross references.

The appendix to this volume contains a list of city publications not included among the numbered documents. The list is classified and arranged in chronological order, and copies of most of these publications may be found at the Public Library.

[There is an edition in 1885 without a title-page, in which pp. 1-38 contain the City Charter. Pp. 39-223 (through chapter 62) seems to be identical with the Revised Ordinances of 1885. Pp. 224-232 (running-title, supplementary) contain the boundaries of the new wards as established December 23, 1885. Then pp. 233-252 are the same as pp. 184-203 of the Revised Ordinances. The table of the disposition of ordinances is the same, except that the "disposition made of standing regulations," on p. 259 (p. 210 of Revised Ordinances), is here printed by itself as p. 260. It lacks the table of cases (pp. 211-214) and the index (pp. 215-275) of the Revised Ordinances.]

- 1868 Journal of the Common Council of the City of Boston. 1868. Boston: Alfred Mudge & Son, city printers . . . 1869. 392 pages.

This is the official journal, giving the action of the Common Council at every meeting during the year, but none of the remarks. The subsequent volumes were:

1869 . . . pp. 366.	1872 . . . pp. 568 and 1.

PROCEEDINGS.

Since July, 1868, the proceedings of each branch of the City Council have been published in some newspaper and from the type a certain number of copies have been printed and distributed to members. Each meeting being kept separate and beginning with a new page, there is an unusual percentage of blank pages in the volumes when gathered together and bound. The reports are nearly *verbatim*, the reporter being allowed to condense his notes while preserving the sense of the remarks. The volumes are as follows:

[The volume for the half year, July-December, 1868, was not bound at the time, but from one copy, fortunately preserved, a reprint was made in 1879. The first volumes were issued without indexes, but these were afterward supplied in 1875-77. In 1885 there was published the following:]

1851. Same title. Eastburn. 161 pages.
The size of the page was increased to about 6½ by 3½ inches; since that date the Register has maintained about the same size page and a general uniformity of subject matter.

NOTE.—The "Rules and Orders of the Common Council" were first published in 1822, and were continued annually till 1841, when the title was changed to "Municipal Register." I will therefore follow out to the end the bibliography of the Register. The list of members of the City Council for each year was given; and in 1843, for the first time, a consolidated list was inserted, giving all the members from 1822. This list, with the necessary changes, was printed in 1845, 1846, 1848 and 1849, the members from each ward being grouped together. In 1850, for the first time, the City Council for each year was printed collectively, in the style which has since been followed.

In 1843 a most inexplicable confusion was made in respect to Wards 8 and 9. The list puts all of the members from Ward 8 who served prior to 1839 (when there was a new division into wards) under Ward 9, and those from Ward 9 under the head of Ward 8, and this error for the years 1822-1838 was continued in the Municipal Register through the issue for 1890. It has been corrected in the tables given in the "Catalogue" printed in 1891 and noticed hereafter. I cannot explain this idea, because although Wards 8 and 9 did in 1843, in a measure, exchange numbers, yet the boundaries of the new wards varied quite essentially from those formerly existing.

These lists were carefully revised in 1890 by C. W. Ernst, Esq., and again by Frederick E. Goodrich, Esq., and quite a number of errors were corrected. The principal corrections to be made in the Registers as issued are, in 1827, Ward 4, Quincy Tufts to be substituted for William R. P. Washburn; in 1835, Joseph H. Hayward to be added as an alderman; in 1837, Ward 6, George W. Bazin to be struck out and Jonathan Chapman inserted; in 1839, Thomas Richardson to be removed from the aldermen and Samuel Quincy inserted, and in Ward 7, Elbridge G. Austin to be added; in 1843 the contested seats in Ward 1 are shown; in 1844, Ward 3, John Snelling to be dropped and James Boynton substituted; and in 1863, Ward 3, Nicholas J. Bean added.

The lists of the City Councils of Roxbury and Charlestown were first added to the Boston Municipal Register in 1888. The city of Roxbury published its Register annually, the first being for 1816-47, then 47-48, 48-49, 49-50, the Council being organized on the first Monday in April. February 12, 1850, an act was passed changing the

date to the first Monday in January, and the members for 1850 only held office for nine months. A new Register was printed for 1850, and thereafter in every year including 1867, when Roxbury was annexed to Boston. The Registers for 1855 and 1858 contain a view of the birthplace of Warren; that for 1859 has a portrait of Warren; that of 1860 a portrait of Gen. Henry A. S. Dearborn, the second mayor; and that of 1861 a portrait of Hon. Samuel Walker.

The city of Charlestown seems to have issued comparatively few editions of its Register. I have seen or have been informed of "The Rules and Orders of the City Council," etc., for 1847, 84 pages; the "Municipal Register" for 1848, 113 pages; and the Municipal Register for 1849, 18 pages (apparently only a supplement). In 1850 (108 pages); 1851 (28 pages); 1852 (120 pages); 1853 (28 pages); 1854 (16 pages); 1856 (141 pages); 1858 (16 pages); 1859 (18 pages); 1863 (42 pages); 1864 (161 pages); and 1870 (192 pages), the Register was issued. Those for 1850, 1852, 1856, 1868 and 1870 contain rules, ordinances, special laws, etc.; those for 1853, 1854, 1858, 1859 and 1863 were probably only supplements. I am informed that no other editions were published. The city documents were issued annually in bound volumes, the latest being dated in 1872.

1822. Official papers printed for the Common Council of the City of Boston, comprising the Constitution of the United States, and the Constitution of Massachusetts, with the Amendments. City and police acts; act relating to the Board of Health, Overseers of the Poor and fire wards, together with an act providing for the assessment of taxes. Boston: Printed by Russell & Gardner. 1822. 12mo. 138 pages and 1 page index.

[The title fully describes the book, which was, very probably, not an official publication, but a manual prepared by Benjamin Russell, who was a member of the Common Council in its first year.]

1856. Rules and orders of the Board of Aldermen, City Council and Common Council of the City of Boston, together with a list of the members and committees of the City Council. Boston: Moore & Crosby, city printers, 1 Water street. 1856. 52 pages.

[This pamphlet, page size 6½ by 3½ inches, was certainly published annually from 1856 to 1869. In 1868 the form was changed to a much smaller page and has been printed annually since. For 1868 and 1869, possibly for a year or two longer, both editions were issued.]

1868. Officers and members of the Board of Aldermen and Common Council of the City of Boston, with the standing committees. Boston: A. Mudge & Son, printers to the city, 34 School street. 1868. 23 pages.

[This seems to be the first issue of the smaller form, but in 1873 the title reads as follows: "Organization of the City Government of Boston for the year 1873. Boston: Rockwell & Churchill, city printers, etc." 32 pages. This form has been continued since 1875, and in some years more than one edition has been printed, either with or without the rules and joint rules.]

1882. Fortieth anniversary of the election of Washington Parker Gregg as Clerk of the Common Council of the City of Boston. Celebrated by a complimentary banquet given by past and present members of the Common Council, at the Hotel Vendome, January 7, 1882. Boston: Printed by order of the City Council. [Prepared by W. H. Whitmore. It contains a list of all members of the Boston City Council, according to the date of election, the annual lists of those members which were previously printed in the Register every year, and a register of city officers and members of boards.]

It should be noted under this head that the inaugural addresses of the mayors, the farewell addresses of chairmen of the aldermen, and those of the presidents of the Common Council are often found without the mark of city document. I think, however, that these editions were always printed from the document types, without change of text, and they will be found under the proper heading in the first part of this index.

FOURTH OF JULY ORATIONS DELIVERED BEFORE THE TOWN.

[In 1783 the inhabitants of Boston decided to substitute for the annual "Massacre" oration one on the fourth day of July in each year. Loring (Hundred Boston Orators, page 156) describes the change not quite exactly. The order was considered in the town meeting of March 5, and its adjournment (Records, pages 196 and 203), and a committee reported, March 25, a new draft, which was accepted. This provides that "the anniversary of the Fourth Day of July, 1776 (a day ever memorable in the annals of this country for the Declaration of Independence), shall be constantly celebrated by the delivery of a public oration, in such place as the town shall determine to be most convenient for the purpose,—in which the orator shall consider the feelings, manners and principles which led to this great national event, as well as the important and happy effects, whether general or domestic, which already have, and will forever continue, to flow from this auspicious epoch."]

1822. A full and authentic report of the debates in Faneuil Hall, December 31, January 1 and 2, 1821-22, on changing the form of government of the town of Boston. Including the speeches of Messrs. [This is not an official report, but contains a lively sketch of the town meetings.]

It was the intention of the compiler to add a section in regard to the reports of the departments of the city government, and the completion of this work was delayed on that account. The idea was reluctantly abandoned for the present, although the task must be eventually performed. So many documents were issued with a serial number, and also without a number for departmental use, that the collation will be a tedious labor. It seems best to print the foregoing lists as a contribution, hoping that errors and omissions will be noted and reported.—W. H. W.
